

## Welcome to the AMC

The Australian Music Centre (AMC) has facilitated the creation, performance and awareness of Australian art music nationally and internationally for more than forty years. The AMC plays a significant contributing role in the art music ecosystem by providing the most extensive collection of Australian scores, recordings, teaching kits and aggregated music resources in the world.

Our collection holds over 13,000 digital items that AMC members can access from anywhere in the world, and we maintain an extensive online shop, selling a variety of products relating to Australian music.

Each year our specialist staff handle around 25,000 requests for information, loans and purchases, and our comprehensive website averages over 6,000 sessions and 20,000 page views per week.

We present prizes and awards; promote events and opportunities; publish books, sheet music, education kits and offer an MP3 download service; we sell a comprehensive range of stock from external publishers and record labels; and we deliver a thorough communications program - AMC members can stay up to date with our monthly E-news, read our online magazine *Resonate* and interact with our social media channels.

### [www.australianmusiccentre.com.au](http://www.australianmusiccentre.com.au)

Regardless of where you are located, our well-maintained website allows you to access and explore the unique landscape of Australian music. You can browse works, people, performances, events, products and other interesting information about Australian music; including feature articles and news articles. AMC members also have exclusive access to our ever-growing digital library.

### Online catalogue

Our library collection boasts over 30,000 items, making it the most substantial collection of Australian art music in the world! Our catalogue includes scores, parts, biographies, program notes, recordings, reviews, lists of repertoire and much more. Our custom-built website enables you to search by multiple parameters (such as composer, duration and difficulty), making it easy to find exactly what you're looking for. When browsing our site you will notice short score and audio samples, to assist you in finding music. And our specialist staff are on hand to offer advice and help whenever you need.

## Your online account

AMC members can 'log in' to their online account to borrow digital items from our library collection. School members can borrow up to 50 digital items per calendar month and Individual members can borrow up to 30 digital items per calendar month. While these library items are strictly for research and perusal purposes, they provide teachers, students, researchers and music lovers a way to instantly access Australian music. If an item is not available in the digital library, you can make a loan request directly to AMC staff.

Your online account also enables you to efficiently place sales orders online and access special materials, such as the Opportunities listing which includes competitions, calls for scores etc. for composers and performers.

## Member benefits

- Digital Library loans – AMC members are able to download PDF perusal scores from the library's digital collection.
- 10% discount on purchases of CDs, books, scores & more (not available to secondary student members)
  - o CD releases
